

COMMUNITY UPDATE

July 2022

Moorabool North and South Wind Farm

Progress to date

- Finalising commissioning of all turbines.
- The project played an integral part during the recent energy crisis by lifting output from 100MW to 300MW when it was most needed.

Look ahead

- Anticipate full generation of 104 turbines, subject to AEMO approval.
- Big thank you to the community for your support.

Landscape and Visual Screening Program

Owners of residential dwellings within 4km of the Moorabool Wind Farm are invited to participate in a landscape and visual screening program.

This is to assist those closest neighbours in reducing the potential visual impacts of the project. All agreed works are undertaken by Moorabool Wind Farm at no cost to dwelling owners.

Visit www.mooraboolwindfarm.com or contact us for more details.

Moorabool Wind Farm Community Fund 2022

To date, Moorabool Wind Farm has invested more than \$450,000 in the local community through its community funding, local sponsorships, and community partnerships.

The third round of the Community Fund closed on 24th June. We will now assess the applications with the assistance of the community fund assessment panel.
