1. Introduction

The Moorabool Wind Farm Community Fund (MWFCF) gives financial support to community groups, organisations and projects that provide a benefit to a broad proportion of the local community.

MWFCF will provide \$2,500.00 per installed wind turbine annually.

This is divided between MNWF, \$125,000 and MSWF \$135,000.

The funding will begin at practical completion of each section of the wind farm and will continue on similar dates each year. Dates will be advertised in advance of each round.

This document sets out the Guidelines for applying for funding through the MWFCF.

2. Key Aims

The key aim is to enable local not-for-profit groups, organisations and projects to make a positive and enduring contribution to the local community.

The Community Fund Assessment Panel (CFAP) has been appointed to evaluate all applications and to determine how best to distribute funds. The aim is to maximise long term benefits for communities within and around the wind farm.

All applications must align with the following:

- Substantial positive and long-term benefits to the local community, including social, economic and environmental,
- Strengthen the local community and aim for better connections between groups / areas,
- Promote the local awareness of the Community Fund and Moorabool Wind farm.
- CFAP will hold presentation meetings to receive funding where successful applicants will be required to attend.

Notes:

- The number of applications for funding may exceed the total funds available. Therefore, not all projects may be successful in receiving support.
- Applications with a dollar for dollar contribution or with in kind support will be favourably considered.
- The CRG recommends successful applicants and the final amount of funding is at Moorabool Wind Farms discretion.

3. Fund Area

Communities supported by MWFCF are to be within a 10km radius of the Moorabool Wind Farm Project boundary. Priority will be given to areas within the 10km radius, and any funding that may be available may be used for areas outside this demarcation line. This area will be reviewed annually.

See Appendix 1 – Map of Area within 10km radius. The Fund area may be revised in future years to incorporate a larger geographical area.

4. Applicants eligible to receive funding:

- A Not-for-Profit Organisation

It is anticipated that all projects will be implemented as per the application.

If the project is delayed, a revised timeframe must be requested in writing. This will be reviewed and where possible a revised timeframe will be provided by variation to the CFPA. If a variation is not requested or unable to be provided, all unspent funds must be returned to Moorabool wind farm within 30 days from notification.

Revisions to a project or applications to amend a successful project will not be allowed. If the project cannot be implemented as per the application any unspent funds must be returned to Moorabool wind farm within 30 days.

Successful applicants can reapply for funding in subsequent rounds if they have successfully completed past projects and all reporting requirements. Failure to comply with this requirement may impede future applicants from applying for funding under future rounds.

11. Reporting and Evaluation

An Acquittal form will be required to be completed online. A copy of this will be provided to all successful applicants at the time funding is provided.
